His smoke-gray eyes looked frosted, as though the fog ghosts had passed through the window and possessed him. But then the flame on the table candle flared in a draft; lambent light melted the chill from his eyes, and she saw again the warmth and the beautiful sorrow that had impressed her before..Packed full of aftermath, the movie was too violent for Junior's taste. He had wanted to meet at a showing of Doctor Dolittle or The Graduate. But Google, as paranoid as a lab rat after half a lifetime of electroshock experiments, insisted on choosing the theater..Few people will spend the greater part of their youth in school, struggling to obtain the education required for a medical specialty, unless they have a passion to heal. Franklin Chan was a healer, whose

passion was the preservation of vision, and Agnes could see that his anguish, while a pale reflection of hers, was real and deeply felt. Once, she left the TV and came to Tom, where he sat talking with Paul. "It's like Gunsmoke and The Monkees are next to each other on the TV, both at the same time. But the Monkees, they can't see the cowboys-and the cowboys, they can't see the Monkees." Tammy--the stock analyst, broker, and cat-food-eating feline fetishist-whom he had dated from Christmas of '65 through February of '66, had given him the timepiece in return for all the trading commissions and perfect sex that he had given her. This is a tale of those times. Some of it is taken from the Book of the Dark, and some comes from Havnor, from the upland farms of Onn and the woodlands of Faliern. A story may be pieced together from such scraps and fragments, and though it will be an airy quilt, half made of hearsay and half of guesswork, yet it may be true enough. It's a tale of the Founding of Roke, and if the Masters of Roke say it didn't happen so, let them tell us how it happened otherwise. For a cloud hangs over the time when Roke first became the Isle of the Wise, and it may be that the wise men put it there. Yet his curious attraction to these newborns kept him at the window, and he began to believe that unconsciously he had intended to come here from the moment he guided his walker out of his room. He'd been compelled to come. Drawn by some mysterious magnetism. When together in Agnes's company, Edom and Jacob were brothers, comfortable with each other. But together, just the two, no Agnes, they were more awkward than strangers, because strangers had no shared history to overcome. Celestina sensed an easy camaraderie between these two men, but also tension that was perhaps related to the reference to an illegal search. "Fifteen fifty-six?" Bill frowned. "Hell, the Chinese probably didn't even have mud back then." Having gotten the new roof for them at cost, Agnes subsequently put together donations from a dozen individuals and one church group to cover all but two hundred dollars of the outlay. The 9-mm pistol and the ammunition were on the foyer table. With trembling hands, Junior tore open the boxes and loaded the gun. Out of a sphinx face, Obadiah conjured a smile that lifted the point of his white goatee when he turned his head to look at Edom. "Ah ... so long ago," he murmured, as though speaking to himself. "So long ago ... but I remember now." He winked at Edom. Beseechingly, with no intention of intimacy, he took Celestina's hands in his. "For years, as an obstetrician, I brought life into the world, but I didn't know what life was, didn't grasp the meaning of it, that it even had meaning. Before Rowena, Harry, and Danny went down in that airplane, I was already ... empty. After losing them, I was worse than empty. Celestina, I was dead inside. Phimie gave me hope. I can't repay her, but I can do something for her daughter and for you, if you'll let me." That happened ten years ago, the first and last time anyone shot at Nolly. The real work of a private eye had nothing in common with the glamorous stuff depicted on television and in books. This was a low-risk profession full of dull routine, as long as you chose your cases wisely--which meant staying away from clients like Enoch Cain. With a bark of pain, chest to chest with defeat, the killer was borne downward by the fragrant weight, in a clink and clatter of brass handles. As she turned away from him and continued along the hall toward the kitchen, Agnes said, "They'll be as good as new when she's mended them." The attorney's admission surprised Junior. This was probably as close as Magusson would ever get to saying, Maybe you didn't kill your wife, after all, but he was by nature a nasty prick, so even an implied apology was more than Junior had ever expected to receive. He gently drew the covers over his wife's ruined body, to her thin shoulders, but arranged her right arm on top of the blankets. He straightened and smoothed the folded-back flap of the top sheet. "In the early hours of January seventh," Nolly continued, "Miss White died in childbirth, as you figured." Vanadium was dead. Pounded with pewter and sunk in a flooded quarry. Gone forever. Always, he was good with Barty, and on this occasion, he teased more than the usual number of smiles and giggles from the boy as he tried to get him to read the Snellen chart on the wall. Then he lowered the lights in the examination room to study his eyes with an ophthalmometer and an ophthalmoscope. Edom, who had never made it big, medium, or little, watched his sister blur before him. He strove to contain the shimmering hotness in his eyes. His love was not for magic, and his pride was not in any skill he possessed, for he possessed none worth noting. His love was for his good sister; she was his pride, too, and he felt that his small life had precious meaning as long as he was able to drive her on days like this, carry her pies, and occasionally make her smile. Arriving home, he hesitated to open the door. He expected to find Vanadium inside. The stress that he currently felt wasn't the same that he so often relieved with women. This was an energizing tension, a not-unpleasant tightening of the nerves, a delicious anticipation that he wanted to experience to its fullest--until the gallery reception for Celestina, on the evening that her show opened, January 12. This tension could not be released by intercourse, but only by the killing of Bartholomew, and when that long-sought moment arrived, Junior expected the relief he experienced would far exceed mere orgasm. OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother gave him his country name; she was a farm woman from Endlane village, around northwest of Mount Onn. She had come to the city seeking work, as many came. Decent folk in a decent trade in troubled times, the boatwright and his family were anxious not to come to notice lest they come to grief. And so, when it became clear that the boy had a gift of magery, his father tried to beat it out of him. "I want you to adopt the baby." Before they could react, she hurried on: "I won't be twenty-one for four months yet, and even then they might give me trouble about adopting, even though I'm her aunt, because I'm single. But if you adopt her, I'll raise her. I promise I will. I'll take full responsibility. You don't have to worry that I'll regret it or that I'll ever want to drop her in your laps and escape the responsibility. She'll have to be the center of my life from here on. I understand that. I accept it. I embrace it." Reluctant to leave Joey's body with the oddly jumpy mortician, Jacob nevertheless crossed the porch of the Victorian style funeral home and left without glancing back. He walked one mile home, alert to passing traffic, especially cautious at intersections. "I ALWAYS EAT CAV-EE-JAR FOR BREAKFAST," said Velveeta Cheese in her stuffed-bear voice. Smiling, pulling the blanket more tightly around herself, she said, "You look after your old mom, don't you?" Still looming over her, he snatched the pad out of her hands and examined the sketch. "Where would you have seen this?" In fact, attorneys for the potential plaintiffs felt that Nork, Hisscus, and Knacker were too willing to reach an accommodation, and they met the trio's conciliation with high suspicion. Naturally, the state didn't want to defend against a claim involving the death of a beautiful young bride and her unborn baby, but their willingness to negotiate so early, from such a reasonable posture, implied that their position was even weaker than it appeared to be. More likely than not, this was a lie, and the detective was, setting him up. Suddenly Junior wished that he had denied dreaming. Outside, he realized he hadn't paid for his juice and waffles. When he turned back to the coffee shop, he saw, through one of the windows, an associate of Salk's picking up the check from his table. The painkiller was not morphine-based, and it did not signal its presence in the system by inducing sleepiness or even a faint blurring of the senses. After forty minutes, however, he was sure that it must be effective, and he put the book aside. Whereas Edom feared the wrath of nature, Jacob knew that the true hand of doom was the hand of humankind. "Mommy, watch!" He turned in the deluge

with his arms held out from his sides. "Not scary!". During the five years following Agnes's death, their family of many names thrived. Barty and Angel had brought them all together in this place fifteen years previously, but the destiny about which Toni had spoken on the back porch, that night in the rain, seemed to be in no hurry to manifest itself. Barty could find no painless way to sustain secondhand sight, so he lived without the light. Angel had no reason to shove anyone else into the world of the big bugs, where she'd pushed Cain. The only miracles in their lives were the miracles of love and friendship, but the family remained convinced of eventual wonders, even as they got on with the day at hand. With that thought, he made himself laugh. Unfortunately, his laughter was high-pitched and shaky, and it scared the hell out of him. Dumpsters and delivery trucks hulked against the building walls. Steam billowed out of street grates. The gray shadows were no longer disturbed by a running shade in a tweed sports jacket. With her brothers, she adjourned to the waiting room, where the three of them sat drinking vending-machine coffee, black, from paper cups. twenty-eight pounds. Typically, seven to eight pounds of this is the fetus. The placenta and the amniotic fluid weigh three pounds. The remaining eighteen are due to water retention and fat stores. The car shuddered, wrenched steel screamed, and a cry of triumph rose from the rescuers. She. Heretofore, Celestina hadn't given a thought to the gender of the baby, because, to her, it had been less a person than a thing. He was about to lift the body out of the chair when he heard the car in the driveway. He might not have caught the sound of the engine so distinctly and so early if the stereo had not been in the process of changing albums. Embarrassed, cold, abruptly frightened, she returned to the Old West, where night on the low desert was warm. The campfire flickered welcomingly. John Wayne put an arm around her and said, "There are no dead husbands or dead babies here," and though he intended only to reassure her, she was overcome by misery until Shirley MacLaine took her aside for some heart-to-heart girl talk. Agnes woke again and was no longer chilled, but feverish. Her lips were cracked, her tongue rough and dry. With some sharp instrument, probably a knife, Cain had stabbed and gouged the red letters, working on the wall with such fury that two of the Bartholomews were barely readable anymore. The Sheetrock was marked by hundreds of scores and punctures. Clutching the blanket, she thought of the funerary lap robes that red the legs of the deceased in their caskets, for she felt sometimes cove half dead. Both feet in this world-yet walking beside Joey on a strange road Beyond. Until Nolly, Kathleen's life had been as short on romance as a saltless saltine is short on flavor. Her childhood and even her adolescence were so colorless that she'd settled on dentistry as a career because it seemed, by comparison to what she knew, to be an exotic and exciting profession. She'd dated a few men, but all were boring and none was kind. Ballroom-dancing lessons-and ultimately competitions-promised the romance that dentistry and dating hadn't provided, but even dancing was somewhat a disappointment until her instructor introduced Kathleen to this balding, bull-necked, lumpy, utterly wonderful Romeo. His happy expectation thickened into dread when he spotted the ambulance at the curb. And in the driveway stood the Buick that belonged to Joshua Nunn, their family doctor. straddles him, driving big fists into his back, brutally into his sides. With high fences and hedgerows of Indian laurels. Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered. "You remember things?" the girl asked, her fingertips still pressed lightly to his cheek. Since the cops believed that Junior accidentally shot himself while searching for a nonexistent burglar, he was already in their book as an idiot. If he tried to explain how Vanadium had tormented him with the quarter, and how a quarter turned up, of all places, in his cheeseburger, they would figure him for a hopeless hysteric. Neddy cooperated by not deigning to look back. Eventually, he stopped a young man who, judging by the name tag on the lapel of his blazer, was a gallery employee. They put their heads together in conversation, and then the musician headed through an archway into the second showroom. Celestina stared at the small, brown face, opening herself to the anger and hatred with which she had regarded this child in the operating room. wickedly sharp silver scimitar suspended by a filament more fragile than a human hair. In the park, rocketing along on the roller coaster, Barty had an experience, a reaction to more than the canted turns and steep plunges. He grew excited in much the way that Agnes had seen him excited when grasping a new and arcane mathematical theory. At the end of the ride, he wanted to get back on immediately, and so they did. There are no long waits for the blind at amusement parks: always to the head of the line. Agnes rode twice again with him, and then Paul twice, and finally Angel accompanied him three times. This roller-coaster obsession wasn't about thrills or even amusement. His exuberance gave way to a thoughtful silence, especially after a seagull flew within inches of his face, feathers thrumming, startling him, on the next-to-last rollick along the tracks. Thereafter, the park held little interest for him, and all he would say was that he'd thought of a new way to feel things-by which he meant all the ways things are-a fresh angle of approach to that mystery. Vanadium's wounds were too grievous to pass for accidental injuries. Even if there were some way to disguise them through clever staging, no one would believe that Victoria had died in a freak fall and that Vanadium, rushing to her side, had slipped and tumbled and sustained mortal head injuries, as well. Such a strong whiff of slapstick would put even the Spruce Hills police on to the scent of murder. She traded silence for silence. Then: "Kiddo, I'm still totally confused by this stuff." Outside, flames churned to the left and right of the opening. The front of the house was afire. She asked him how many fingers she was holding up, and he said four, and four it was. Then two fingers. Then seven. Her hands so pale, the palms both bruised. The following morning, he canceled his German lessons. It was an impossible language. The words were enormously long. He nervously fingered the fabric of his slacks, outlining the quarter in his pocket. Still there. Maria gathered up the four jacks and tore them in thirds. She put the twelve pieces in the breast pocket of her blouse. "I buy to you new cards, but no more ever can you to be having these." She hadn't looked up from her sketching. Although Junior thought she hadn't seen him, she'd apparently been aware of him all along. The detective shrugged. "The girl might've had her baby at a third rate hospital, one with poor control of patients' records and a less professional staff. Or the kid might have been placed for adoption through some baby brokerage in it strictly for the money. Then there would've been opportunities to learn something. But as soon as I discovered it was St. Mary's, I knew we were screwed." "Thanks, Sparky, but not tonight. I'm thinking of taking a look around downstairs if old Nine Toes isn't stuck at home tonight with a case of paralytic bladder." "same," Agnes admonished. "Who's been raising you, sugarpie, if you don't know that? Are you going to pretend you've been brought up by wolves for nine years?" Ever the romantic, he wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight. As he said cards, the magician turned a knowing look toward Edom,

eliciting from him a responding frown of puzzlement.
